

# The Jones Family Foundation proudly supports Ronald McDonald House

Since 2019, the Jones Family Foundation has been a valued supporter of Ronald McDonald House BC & Yukon, helping provide a home away from home for families when their child becomes seriously ill or injured. From volunteering their time to come cook dinner for the 73 families staying with us to making an annual contribution to help us Light the House during the holidays, their generosity creates moments of comfort, connection, and care during incredibly challenging times.

This reflects the T. Jones Group's strong belief in the importance of family, community, and showing up for others. Their commitment goes beyond financial support – it helps foster an environment where families can find stability, strength, and a sense of belonging.

Just as they value building lasting relationships and strong foundations in their work, their partnership with Ronald McDonald House helps ensure families from across BC and the Yukon can stay close to each other and the care they need at BC Children's and BC Women's Hospital. We are deeply grateful for the Jones Family Foundation's continued dedication that opens the doors for more families to heal together through their hardest times.
